

INSPIRING STUDENT
ACHIEVEMENT AND
COMMUNITY PARTICIPATION
WITH **DIGITAL MEDIA**
A SOCIAL LEARNING
IN NETWORK

Increase Student Participation with Safe Networking Tools.

Engage and motivate students with tools such as group pages, buddy lists, the "hot list", profile pages, a rating system, group bulletins, and much more.

Upload, share, and collaborate by storing all multimedia in one central location.

Users can create an online digital portfolio to store everything from artwork, science experiments, projects, and more.

Keep students and district content safe in a password protected online environment.

All student work, as well as district uploaded content, is password protected and complies with CIPA and COPPA.

Start using Arkansas Digital Sandbox by contacting your Arkansas Digital Sandbox Account Executive and visiting:
<http://adesandbox.arkansas.gov/>.
